

Architape Pro 100 RGB

Flexible RGB LED strips

Architape Pro 100 RGB LED strips are an excellent choice for creating colourful light effects for decorative lighting applications.

Containing 96 RGB Nichia LEDs per metre, these light strips deliver exceptional light output, offering a long-lasting and versatile solution for colour changing lighting applications. This is achieved through the combination of a robust and flexible copper PCB, high-end LEDs and a current stabilization system.

Key features

- Stable colour mixing
- Dimmable
- 24V DC voltage input
- Reverse voltage protection
- 3 Step MacAdam LEDs or Single Bin LEDs
- Stabilized current design
- Thick and durable copper PCB
- Thermal conductive adhesive tape on back side for better heat conduction
- Can be cut in 62.5 mm length segments
- Compact 10 mm width

Applications

- Advertising
- Backlighting
- Cove lighting
- Furniture illumination
